Dear Prime Minister

I am writing to ask you to reject the recommendation within the Hooper Report to part privatise Royal Mail and commit to a negotiated agreement supporting the much needed modernisation of Royal Mail.

I am gravely concerned about the Government's plans to privatise Royal Mail. Such a move would risk fracturing one of Britain's greatest public services and put our universal (one price goes anywhere) service under threat. I call on you to uphold the decision taken at the 2008 Labour Party Conference, which you supported, for a wholly publicly owned, integrated Royal Mail Group.
